

FI INFLATIONSSCHUTZ PLUS BOND

The **FI Inflationsschutz PLUS Bond** is for investors who prioritise **inflation protection while maintaining the potential for strong returns**. The **FI Inflationsschutz PLUS Bond** provides a **fixed annual interest rate of 5%**, paid quarterly, ensuring real inflation security for your investment. Investors also receive a **20% profit participation** in the **average annual performance** of three major stock indices — **S&P 500, MSCI World, and Euro Stoxx 50** — allowing you to benefit directly from market growth. Even if the indices perform negatively, investors still receive the fixed interest payments without any risk of loss participation.

The **FI Inflationsschutz PLUS Bond's** short term maturity period allows investors to access their capital sooner, creating more opportunities for reinvestments.

Disclaimer – Important Information on Bonds

This document does not constitute investment advice, a public offering, or a solicitation to acquire bonds. Investments in bonds are subject to risks, which may result in a partial or total loss of the invested capital. **Past performance and returns are not a guarantee of future results.** The value of a bond may fluctuate due to market conditions, economic developments, or issuer-specific factors. The actual return depends on the performance of the underlying assets as well as prevailing interest rates and market conditions. Investors should conduct thorough due diligence on the specific risks and terms of the bond before making an investment decision and, if necessary, seek independent financial or legal advice. The issuer assumes no liability for any losses or damages arising from the use of this information or from investments in the bonds.
